

We Are Affinity Esports and we are on a mission to create safe spaces for happier and healthier gaming experiences.

Through our recreational programs, your children are introduced to the world of esports, full of new and emerging career paths, experiential learning, and highly engaging social activities. Each of these programs has been structured to reinforce critical life skills, such as teamwork, communication, and problem solving. Through their time with us, we will guide your children to build healthy habits and harness their passion with an extreme commitment to balancing wellness, education, mentality, competition, and socialization. Esports have been linked to powerful outcomes, such as improved social and emotional skills, problem solving, future career viability, and academic performance.

Testimonials

“Great program - I am so pleasantly surprised. They teach kids how to game healthfully (ie. importance of taking frequent breaks, good sportsmanship, teamwork).” - Desiree (Parent)

“This format is a great concept for kids who like to game. The owner has created a positive and fun atmosphere for students to learn and practice strategy as well as teamwork. We will be back for more!” - Corina (Parent)

“I really enjoyed the camp. Thank you for teaching me about a game I did not know how to play. Everyone here is friendly and nice. Thanks for the great time.” - Trace (Participant/Child)

Affinity Esports Milford Studio (125 Old Gate Lane, Milford, CT 06460)

After-School Clubs (August 29th - December 20th)

After-School Study & Play Club (Ages 7-15) - \$750

The Affinity Esports After-School Club is dedicated to creating a safe and enjoyable environment for children in grades 2-8. Our program runs from school dismissal until 6:00pm, Monday through Friday, and offers flexible attendance options, allowing children to join us for a day, week-to-week, or the entire season from September to December. At our club, we provide a balanced mix of activities designed to keep children engaged and enriched. Our Homework Help sessions ensure that children have the support they need to succeed academically. For those interested in strategic and creative play, our Tabletop Gaming sessions offer a variety of board games that promote critical thinking and teamwork. In our Gaming sessions, children can enjoy supervised video gaming that emphasizes skill-building and friendly competition. We also prioritize physical activity and fresh air with regular Outdoor Breaks, allowing children to recharge and stay active. Additionally, our program fosters Socialization, helping children develop essential social skills and build lasting friendships through group activities and collaborative projects. Join us at the Affinity Esports After-School Club, where learning and fun go hand in hand!

*Mon-Fri from 3:00pm-6:00pm, Aug 29th-Dec 20th (15 weeks) Min: 5 Max: 10, No Class: Sept 2, Oct 3, Nov 5, 25-29
Note: Contact us for information on daily and weekly rates.*

After-School Classes - Session A (September 16th - October 25th)

Content Creation and Live Streaming (Ages 7-15) - \$175

Have your child join us for Content Creation and Live Streaming where they will learn the fundamentals and develop skills necessary to become a successful content creator. During this class, your child will have the opportunity to explore their creativity as they produce unique content. They will get an overview of hardware and software requirements, streaming platforms (such as Twitch and YouTube), lighting, audio, video editing, graphic design, and more. They will be able to configure their setup, get behind the camera and microphone, and share the final results online (or just with family and friends). This class will provide the foundation for aspiring creators to expand their creativity and passion into all areas of their life, be it esports, gaming, or otherwise.

Mondays from 4:45pm-6:30pm, Sept 16th to Oct 21st (6 weeks) Min: 5 Max: 10

Gaming and Esports Foundations (Ages 7-13) - \$155

Join us for Gaming Foundations where your child will explore games like Minecraft, Rocket League, Fall Guys, Super Smash Bros, and Mario Kart in a social, encouraging environment. Each day focuses on a key skill - character development, teamwork, communication, problem-solving, and leadership. Beyond gameplay, participants get an exclusive look into our production and competition room, gaining insights into the next level of esports. This program serves as a gateway to our competitive teams, fostering passion for gaming while highlighting the importance of balance, health, wellness, and internet safety. We provide guidance for parents to support their child's gaming journey and normalize gaming achievements. Through mastering essential skills, participants are prepared to elevate their passion for gaming to new heights in the dynamic world of esports.

Tuesdays from 4:45pm-6:30pm, Sept 17th to Oct 22nd (6 weeks) Min: 5 Max: 10

Game Level Creation & Design featuring Unity (Ages 7-17) - \$195

This exciting class invites young creators to embark on an adventure in game design using the powerful Unity engine. Students will have a blast building essential skills through hands-on projects and guided exploration. By mastering Unity's game engine fundamentals and crafting interactive experiences, they'll boost their creativity, problem-solving abilities, and critical thinking. Unity, a leading game development platform, allows students to bring their wildest ideas to life, giving them a real taste of what it's like to create their own games. With supportive guidance, they will gain confidence and a deep sense of achievement as they watch their creations come to life. Join us and watch your child's creativity thrive in this dynamic, fun-filled learning journey!

Wednesdays from 4:45pm-6:30pm, Sept 18th to Oct 23rd (6 weeks) Min: 5 Max: 10

Game Creation and Coding (Ages 7-15) - \$195

Encourage your child to join us for Game Creation and Coding. This class will require them to problem-solve, be creative, think critically, and hone basic computer skills to achieve their game creation goals. They will start by learning code basics through Scratch, the world's largest coding community and visual coding language for children, to create their own games. They will also have the opportunity to practice coding through a variety of fun challenges and coding courses in Minecraft Education Edition and Roblox. As they progress through the class, kids will have the chance to socialize and collaborate with each other on improvements and showcase their progress to their parents daily.

Thursdays from 4:45pm-6:30pm, Sept 19th to Oct 24th (6 weeks) Min: 5 Max: 10

After-School Classes - Session B (November 4th - December 20th)

Content Creation and Video Editing (Ages 7-15) - \$175

Explore the exciting world of video editing with our comprehensive course designed specifically for young creatives aged 7 to 15. Whether you're passionate about gaming, storytelling, or just creating fun videos, this course will equip you with the foundational skills needed to bring your visions to life. Through interactive lessons, hands-on projects, and the latest editing software, students will explore the art and science of video editing, learning how to craft compelling stories from raw footage.

Monday from 4:45pm-6:30pm, Nov 4th to Dec 16th (6 weeks) Min: 5 Max: 10

Minecraft and Roblox Explorers (Ages 7-15) - \$155

Embark on a journey of creativity, friendship, and skill-building in our Minecraft & Roblox Explorers program! Gamers will explore the collaborative worlds of Minecraft and Roblox, discovering the joy of creative expression and problem-solving. This unique program not only fosters digital creativity but also emphasizes the development of essential soft skills like communication, teamwork, and adaptability. Through engaging activities in both virtual realms, campers will form lasting friendships while our experienced coaches guide them in navigating the intricacies of Minecraft and Roblox. Parents, be part of your child's adventure by gaining insights into how you can support their social and creative growth in these dynamic digital landscapes. Join us for a camp where friendships and skills flourish in the exciting realms of Minecraft and Roblox!

Tuesdays from 4:45pm-6:30pm, Nov 5th to Dec 17th (6 weeks) Min: 5 Max: 10

Pixel Art and Game Design (Ages 7-17) - \$195

Dive into the exciting world of Game Artistry! Unleash your creativity as you learn to design characters, create animations, and craft captivating backdrops in the magical realm of pixel art. Participants will bring their creations to life and integrate them into a premade game, culminating in a showcase of their pixel masterpieces. No prior experience required – just bring your enthusiasm and get ready to level up your artistic skills in a fun and upbeat environment! Secure your spot now for a pixel-perfect adventure.

Wednesday from 4:45pm-6:30pm, Nov 6th to Dec 18th (6 weeks) Min: 5 Max: 10

Game Creation and Coding (Ages 7-15) - \$195

Encourage your child to join us for Game Creation and Coding. This class will require them to problem-solve, be creative, think critically, and hone basic computer skills to achieve their game creation goals. They will start by learning code basics through Scratch, the world's largest coding community and visual coding language for children, to create their own games. They will also have the opportunity to practice coding through a variety of fun challenges and coding courses in Minecraft Education Edition and Roblox. As they progress through the class, kids will have the chance to socialize and collaborate with each other on improvements and showcase their progress to their parents daily.

Thursday from 4:45pm-6:30pm, Nov 7th to Dec 19th (6 weeks) Min: 5 Max: 10

Winter Camps (December 23rd - December 31st)

Winter Break Gamers Retreat (Ages 7-15) - \$350

Embark on a journey of creativity, friendship, and skill-building in our Minecraft & Roblox Explorers program! Gamers will explore the collaborative worlds of Minecraft and Roblox, discovering the joy of creative expression and problem-solving. This unique program not only fosters digital creativity but also emphasizes the development of essential soft skills like communication, teamwork, and adaptability.
